EVAPORATORS

The Finishing rig
For well-developed flavors

Its patented technology of High Brix concentration makes this evaporator highly efficient, capable of producing between 20 and 130 gallons of syrup per hour.

It is also easy to clean as it has no flue pan and a pan cleaner can be fitted on top of the flat pans. Unique, the Finishing Rig will offer you a high-quality syrup without the headache.

The Classic
A timeless classic

The Classic, an oil evaporator is a highly reliable piece of equipment. The Classic is sold fully equipped and ready to use. It will offer you peace of mind on top of being easy to operate. The Classic evaporator can be modified to be used in conjunction with a High Brix concentrator.

The Carlin burner which it is equipped with is easy to adjust and has a low maintenance cost. Since this type of burner is popular amongst sugar makers, you will easily and quickly find an authorized technician in your area to help you.
The Tsunami
A natural force

The Tsunami evaporator is the biggest and best performing evaporator offered by H2O Innovation. Its optimized design makes it one of the best high performance evaporators on the market. The boiling is done continuously, without heat peaks, thanks to the constant temperature of the insulated combustion chamber.

This therefore allows for a continuous and stable flow. Moreover, this evaporator includes a fan with variable control to produce optimum combustion regardless of the type of wood used. The operation of the Tsunami is simple and allows you to maximize your work without requiring more effort. The efficiency of the Tsunami can be increased as it is possible to convert it into a High Brix finishing rig.

The Tradition
A tradition of quality

Recently reviewed and improved the solid conception of the Tradition teamed with stainless steel valves and a thick cast iron door make this evaporator ideal for all producers. Moreover, its float box includes a decantor to facilitate the elimination of sugar sand. The Tradition is also available with a blower & grate option with an insulated door.
